# SHASHANK K

**ENTRY-LEVEL SOFTWARE ENGINEER / DEVELOPER (FRESHER)**

**Phone:** +91 9743873982 | **Email:** sharathshashank1986@gmail.com | **Location:** Bengaluru, India
**LinkedIn:** linkedin.com/in/shashank-k-shashank-k | **GitHub:** github.com/Shashanka319

## PROFESSIONAL SUMMARY

Results-driven Computer Science graduate specializing in **Java backend engineering**, **modern Java 8+ features**, **Spring Boot**, **Microservices**, and dynamic web architectures. Skilled in developing **RESTful APIs**, decoupled enterprise services, and database persistence layers using **JDBC**, **Spring Data JPA**, **MySQL**, and **Oracle**. Combines strong fundamentals in **Object-Oriented Programming (OOP)**, **Servlets**, and **React.js** with award-winning hackathon leadership and end-to-end full-stack project execution.

## TECHNICAL SKILLS

**Programming Languages:** Java (Core Java, OOPs, Collections Framework, Multithreading, Exception Handling, Generics)
**Java 8+ Features:** Stream API, Lambda Expressions, Functional Interfaces, Optional Class, Method References, Date & Time API
**Backend & Frameworks:** Spring Boot, Microservices Architecture, Spring Core (IoC, Dependency Injection), RESTful APIs, Spring Data JPA, Java Servlets, JSP
**Databases & ORM:** MySQL, Oracle SQL, JDBC (PreparedStatement, Connection Pooling, CRUD Operations), Relational Schema Design
**Frontend Web:** React.js, JavaScript (ES6+), HTML5, CSS3, DOM Manipulation, Responsive Web Design
**Build Systems & Tools:** Gradle, Git, GitHub, IntelliJ IDEA, VS Code

## PROJECTS

**Empowering Career Growth** — *React.js, JavaScript (ES6+), HTML5, CSS3, AI Integration* **Major Project**

- Spearheaded end-to-end engineering of an AI-powered career growth platform from its **1st-place hackathon victory** to final-year project delivery.
- Served as project leader, architecting the complete frontend UI using **React.js** with reusable components and interactive workflow navigation.
- Integrated asynchronous APIs to dynamically serve structured career recommendations and real-time user assessments.

**Smart Metro Transit Application** — *Java, Spring Boot, Microservices, REST APIs, Gradle, Oracle SQL, JavaScript* **Full-Stack Project**

- Architected a full-stack transit management application powered by a **Spring Boot microservices** backend built with **Gradle** and a dynamic frontend.
- Developed **RESTful API endpoints** to process real-time station discovery, automated fare calculations, and optimal route generation, persisting records in an **Oracle database**.
- Leveraged **Java 8 Stream API** and **Lambda expressions** within service layers for fast transit filtering and station lookups.
- Connected asynchronous frontend `fetch` operations to backend REST endpoints for dynamic data delivery.

**Hotel Reservation System** — *Java, Java Servlets, JSP, JDBC, MySQL, MVC Architecture* **Servlet Project**

- Developed a web-based reservation platform utilizing **Java Servlets** and **JSP** following MVC architectural design patterns.
- Built full **CRUD operations** allowing administrators and guests to query room availability, process check-ins, and manage bookings.
- Configured **JDBC** connectivity with parameterized SQL statements in **MySQL** to prevent injection risks and protect transaction integrity.

## TRAINING & CERTIFICATIONS

**Java Full Stack Development Training** – Xworkz, Bengaluru

- Completed intensive hands-on training covering Core Java, Java 8, Collections, Multithreading, Spring Boot, Microservices, JDBC, MySQL, and Oracle.

**Interview Readiness & Soft Skills** – Seventh Sense

- Completed specialized curriculum focused on quantitative aptitude, technical communication, resume building, and mock technical interviews.

## KEY ACHIEVEMENTS

- **1st Prize:** College-Level Hackathon (2nd Year) – Awarded top honor for project execution and technical leadership.
- **2nd Prize:** College-Level Hackathon (3rd Year) – Secured runner-up award for innovative software architecture.
- **Special Recognition Certificate:** HackSprint, Tumkur Engineering College – Commended for outstanding UI/UX design.
- **Participation Certificate:** SHE Hackathon, organized at JNNC Engineering College, Shivamogga.

## EDUCATION

**Government Engineering College, Challakere** — **CGPA: 8.6 / 10**
Bachelor of Engineering in Computer Science and Engineering — Graduated: May 2026

**Shree Basavapriya Science and Commerce PU College, Channagiri** — Score: 83%
Pre-University Course (Science - PCMB) — 2022

**Shree Madhukeshwara High School, Hodigere, Channagiri** — Score: 88%
Secondary School Leaving Certificate (SSLC) — 2020
