

Complete Spring Core Roadmap

This roadmap is based on your uploaded roadmap and expanded with the missing Core topics identified during review.

Module 1

Spring Introduction, Why Spring, EJB Problems, Architecture, Core Modules

Module 2

IoC, Dependency Lookup, DI, BeanFactory, ApplicationContext, Bean Definition, Bean Metadata

Module 3

Bean Creation (XML, Annotation, Java Config), Constructor/Setter/Field Injection, Collection Injection, Null Injection, Primitive Injection, @Configuration, @Bean, @PropertySource, @Value, SpEL

Module 4

Autowiring, @Autowired, @Qualifier, @Primary, @Resource, @Inject, @Named, Circular Dependency, @Lazy, @DependsOn, @Order

Module 5

Bean Scopes, Lifecycle, Bean Lifecycle Flow, @PostConstruct, @PreDestroy, InitializingBean, DisposableBean, init-method, destroy-method, BeanNameAware, BeanFactoryAware, ApplicationContextAware

Module 6

Component Scan, @Component, @Service, @Repository, @Controller, @Configuration, @ComponentScan, Profiles, @Conditional

Module 7

SpEL, Events, BeanPostProcessor, BeanFactoryPostProcessor, FactoryBean, @Import, @ImportResource

Module 8

Spring JDBC, JdbcTemplate, RowMapper, ResultSetExtractor, DAO Pattern

Module 9

Transaction Management, PlatformTransactionManager, TransactionTemplate, @EnableTransactionManagement, @Transactional

Module 10

Spring AOP, Aspect, Advice, Join Point, Pointcut, Advisor, JDK Proxy, CGLIB, Advice Types, Pointcut Expressions, Advice Order
